SUBMITTED BY:

**DEVANSHI M. AKBARI
[10001]**

VEER NARMAD SOUTH GUJARAT UNIVERSITY

DEPARTMENT OF INFORMATION AND COMMUNICATION TECHNOLOGY

M.Sc. (ICT) PROGRAMME

CERTIFICATE

This is to certify that DEVANSHI MUKUNDBHAI AKBARI

Exam Seat Number: 10001 has worked on Project "TRAVELER"

at HOME as partial fulfilment of the requirements for 1STSemester –
M.Sc. (Information and Communication Technology), During the
academic year 2021-22.

Date: 31STDecember 2022

Head Of Department,

M.Sc. (ICT) Programme.

Department of ICT,

Veer Narmad South Gujarat University

ACKNOWLEDGEMENT

When we reach the completion of the project, giving credit becomes a must, as without the support of other so many people's help and guidance, this project couldn't be completed successfully.

Success in such a comprehensive project cannot be achieved single-handled. It is team effort that sails the ship to the coast. So, we would like to express our sincere thanks to all the dignitaries who were involved in making this project a great joy and turning it into successful piece of work.

We would like to take opportunity to thank our Department J.P. Dawer Institute of Information Science & Technology, Surat for giving us this tremendous opportunity to work in the real-time project.

Dr. Kamlendu Pandey, our professor and project coordinator, has been very prudent to us throughout our college studies. He is the person who has been giving direction to our work and the shape to our imagination and always ready to give best guidance, give solutions whenever required. We express our regards to him from the core of our heart.

Last but not the least, our heartfelt appreciation goes to all those not named here, but who have rendered their co-operation, little or more, directly or indirectly involved in the development of this system.

Thanking All.

Devanshi M. Akbari

1. Introduction

Online Tours and Travel (Traveler) is an internet portal dedicated to meet every consumer's dream destination in the real world.

It is a forum where registered users can book the packages, In the genre the latest packages, hotels and the transportations are the highlights of the web portal.

1.1 Objective of the System

- ✓ It is a web application. So, that maintenance cost, economic cost will less.
- ✓ It fulfills all the need of the user by providing tours at many places with the facilities of staying and about transportation.
- ✓ This is a basic system that will keep a record of booking and the payments and will work as connecting bridge between customer and their dream destinations.
- ✓ Due to this system, there is no need to visit various tours agents in search of their destination's information and many other information related to that city or state.
- ✓ The information about various cities in various states can be accessible in one place.
- ✓ Also will keep a record of contact information of the customer and will send necessary notices and/or reminders to the customer through emails.

1.2 Problem Definition

- ✓ **Online Tours and Travel (Traveler)** is an internet portal dedicated to meet every consumer's dream destination in the real world.
- ✓ It is a forum where registered users can book the packages .In the genre the latest packages, hotels and the transportations are the highlights of the web portal.
- ✓ Feedback of the hotel or package or transportation and generate the leads of every registered user.

- ✓ If the user's account available then show him/her to latest packages, hotels and transportations, if not then provide the register user page to interact with the system. ✓ The system will contact the user through their registered email-ID.
- ✓ In the beginning, the system sends a temporary password to the user and through that password only the user can log in for the first time. Afterward, the user can change the password on their own.
- ✓ After registration, the user can see the details of many places , hotels and transportations and the interested users can feedback it, give their opinion and can book them and have to do the payment at that time.
- ✓ The registered user can search the interesting packages through the searching criteria according to category, min-max budget, city, state, number of days, etc.
- ✓ The registered user can search the interesting hotels through the searching criteria according to room type, city, etc.
- ✓ The registered user can search the interesting transportation through the searching criteria according to city, etc.
- ✓ User can see the latest arrival Packages, hotels and transportations.
- ✓ The registered user can book the packages with expected price and other necessary details.
- ✓ If any user has any personal issue or any other problem, he/she can cancel their bookings afterwards.
- ✓ Any interested user can see the relatable details through the one click on the package, hotel or transportation and if the user interested, then the system will give the user a form to fill up and then the system will book their bookings for the further work and then users have to pay the payment for their bookings.

1.3 Core Components

- **Setup:** Setup component is only used by admin. In that component admin can manage packages, hotels, transportations, categories of packages, room types of hotels, blogs and can see the user related information like their confirm bookings, inquiries, feedbacks etc.
- **Packages:** In this component register user can see list of packages and can search the dream destinations as per the provided criteria and can get the necessary details of that places, can give the feedbacks, can have booking of that and at that end they can pay the payments.
- **Hotels:** In this component register user can see list of hotels and can search the place for the stay as per the provided criteria and can get the necessary details of that places, can give the feedbacks, can have booking of that and at that end they can pay the payments.

- **Transportations:** In this component register user can see list of transportation and can search the dream destinations as per the provided criteria and can get the necessary details of that places, can give the feedbacks, can have booking of that and at that end they can pay the payments.
- **Home:** In this component registered user can search the packages according to their criteria. Through the packages, the user can see the whole details of the place and according to their thought, they will provide the feedback (rating). Here there will be the latest and popular places and staying places and transportations list through which the register user will be served with the best facilities.

1.4 Project Profile

(A) Project Profile

| | |
|-------------------------------|--|
| Project Title | Online Tours and Travel Management (Traveler) |
| Front-End | JSF, Prime Faces |
| Back-End | MySQL 5.7.16 |
| Hardware Requirement | Processor of 800 MHz Pentium (R), Minimum 512 MB RAM and Above, Minimum 40 GB Hard Disk and Above and Mouse, Keyboard. |
| Software Specification | Front End Software: Net beans-13 Back End: MySQL 5.7.16 Operating System: Windows 10 |
| Development Tools | Net beans-13, MySQL 5.7.16 |
| Submitted By | Ms. Devanshi Mukundbhai Akbari |

1.5 Advantages of the Proposed System

Advantages:

- ✓ The admin can see the feedback and rating of their property.
- ✓ Every time, when the interested user book the bookings, The admin and theat user will notified by the Email for their bookings.
- ✓ Every time when user booked the package or hotel or transportations, Every time he/she will ask for the alternative email and contact number. ✓ All registered user can search packages, hotels and transportations by their criteria.
- ✓ All the users will be notified when the new packages, hotels and transportation will be added.

1.6 Future Enhancement

- ✓ In the future, we will try to return the refundable amount on their cancellation of their bookings.
- ✓ We will provide the map service, according to the map you can search the places.
- ✓ The message system is not supported yet for the user.
- ✓ Refundable amount is not provided on cancel bookings.

1.7 Project Scope:

Admin can manage :

- Login
- Manage Category
- Manage State
- Manage City
- Manage Packages
- Manage Bus
- Manage Hotel
- Manage User
- Enquiry
- Payment
- Logout

User Can Manage:

- Login
- Booking
- Payment
- Enquiry
- Logout

Visitor User:

- Registration
- View all client-side Layout
- Feedback

2. Requirement Gathering & Analysis

2.1 Requirement Gathering

I have gathered information about Traveler through the internet, and I found this topic interesting. I assure you that this system will give you more flexibility, reliability as well as financial support.

In this project, I have used the following technology:

2.2 Feasibility

The feasibility of our project has been judged on the basis of time, technology, and project length.

- **Time:**

This project is roughly 3 months to complete primary functionality, so as far as time is concerned this project is feasible.

- **Technology:**

This project is based on Java with NetBeans. Therefore, the technical risk is negligible so the problem is feasible.

- **Project Size:**

The project size is normal and therefore we have undertaken this project.

| Answers | varchar(150) | No | |
| Description | varchar(500) | Yes | |

4.Interface Design

LOGIN

The image displays the Traveler website's interface design, specifically the login page and the footer area.

Login Page:

- Header:** Features a top navigation bar with links for HOME, ABOUT US, CATEGORY, PACKAGES, CONTACT US, CART PAGE, PROFILE, and BOOK NOW. It also includes social media icons for Facebook, Twitter, and YouTube, along with a search icon and a menu icon.
- Main Content:** A large banner image of a person sitting on a cliff edge overlooking a vast canyon. Overlaid on the banner is the word "PROFILE" in large white capital letters.
- Form Fields:** Two input fields for "User Name" and "Password".
- Buttons:** "Submit" and "Reset" buttons.
- Links:** A "Home Page" link in the top right corner.

Footer:

- Logo:** The "TRAVELER" logo with a palm tree icon.
- Recent Posts:**
 - BEST JOURNEY TO PEACEFUL PLACES** (February 17, 2022)
 - TRAVEL WITH FRIENDS IS BEST** (February 17, 2022)
- Contact Us:**
 - Feel free to contact and reach us !!
 - 01(988) 256 203
 - gmail
 - 3146 Koontz, California
- Gallery:** A grid of six thumbnail images showing various travel scenes.
- Social Media:** Icons for Facebook, Twitter, YouTube, Instagram, and LinkedIn.
- Newsletter:** A form to "Enter Your Email" with a "SUBSCRIBE" button.
- Links:** Privacy Policy, Term And Condition, and FAQ.
- Copyright:** Copyright © 2022 Traveler. All rights reserved.

19.ENQUIRY

The screenshot shows a web-based application interface for 'wonder tour'. At the top, there is a blue header bar with the logo 'wonder tour' on the left, a search bar in the center containing the placeholder 'Search ...', and a user profile icon on the right. On the far left, a vertical sidebar displays a series of icons, likely for navigation or settings. The main content area is titled 'Enquiry List' and contains a table with four columns: 'UserName', 'Message', 'UserEmailId', and 'ContactNo'. The table has one data row, which includes the values: Radhika, hello, Radhika@gmail.com, and 99786543.

| UserName | Message | UserEmailId | ContactNo |
|----------|---------|-------------------|-----------|
| Radhika | hello | Radhika@gmail.com | 99786543 |

5. Testing
